

Calculating Cover & Jacket Spine Width Allowances

Calculating Spine Bulk:

In order to calculate the paper spine bulk three pieces of information are required.

- The number of pages (Extent)
- The weight of the paper stock in gsm (Grammes per square metre)
- The volume of the paper (Thickness)

The calculation is Extent x Weight (gsm) x Volume ÷ 20,000 rounded up to the nearest millimetre

Example: 320pp (Extent) x 80gsm (Paper Weight) x 17.5 (Volume) ÷ 20,000 = 22.4 (Spine bulk of 23mm)

Additional allowances are then added to this figure subject to the type of binding and the result of the spine bulk calculation. Typically this extra allowance is to allow for further bulking in the binding process and thickness of the boards used in the manufacture of case bound books.

Notch Limp or Perfect Bound:

No further allowances required. Minimum spine size 3mm - **Maximum spine size 60mm**

Sewn Limp:

Add additional 1mm to bulk - **Maximum spine size 60mm**

Notch Case Bound:

Up to 479pp + 4.5mm

480pp - 959pp + 5mm

960pp and above + 6mm **Maximum spine size 60mm**

Sewn Case Bound:

Up to 479pp + 5.5mm

480pp - 959pp + 6mm

960pp and above + 7mm **Maximum spine size 60mm**

Flat Back Case Bound:

Up to 479pp + 9.5mm.

480pp - 959pp + 10mm.

960pp and above + 11mm **Maximum spine size 60mm**

Standard Book Sizes

Common Sizes:

198x129	B - Format	297x210	A4
216x138	Demy		
229x152	American Royal		
234x156	Royal Octavo		
246x171	Pinched Crown Quarto (PC4)		
246x174	Pinched Crown Quarto (PC4)		
246x189	Crown Quarto		
276x219	Demy Quarto		

(To calculate correct spine width allowance please refer to the first page of this document for instructions)

Add trim marks

3mm bleed ALL around

Flap width minimum size = 50mm
 Flap width maximum = trimmed book width less 10mm

Trimmed book width +2.5mm for flap fold)

Spine width

Trimmed book width +2.5mm for flap fold)

Flap width minimum size = 50mm
 Flap width maximum = trimmed book width less 10mm

Ensure artwork extends to the edge of the flap fold allowance

Ensure artwork extends to the edge of the flap fold allowance
